WORKSHOP ON "FOOD ADULTERATION"

Under

Faculty Development Program

Date : 8 April 2021
Organized By : Department of Chemistry & NSS unit
Place : Auditorium & Department of Chemistry
Audience : Faculty Members of Department and Students of College
Distribution : IQAC Cell and Principal Office

In accordance with the New Education Policy, 2020 which aims at Innovative and Creative teaching learning, it was decided to organize lecture cum talks on meaningful general topics of various Science subjects by the faculty members at regular intervals. The purpose of such activity is real multidimensional development of faculty members as well as to develop interest in other subjects of the same stream. The activity will also enhance a positive academic attitude among them. Thus, as a first interdisciplinary

program, the topic of said workshop was chosen with the aim to make participants aware about the issue so that they may play a positive and responsible role for the society regarding health issues related to food adulteration specifically. About 75 students (PG Final year) of all subjects participated along with various faculty members.

Principal

Seth G.B. Podar College
Nawalgarh - 333042

In the inaugural session, Principal Dr. Satyendra Singh emphasized the significance of the workshop on such a burning issue associated with the society at large. He motivated the participants to get aware from the workshop so that in turn they may guide the people in their locality about the issues. Vice-Principal, Dr Vinod Kumar Saini threw light on various ailments caused due to food adulteration.

Dean (Science), Dr K B Sharma explained the need of such workshop in the context of New Education Policy, 2020. He suggested students to get ready for the new horizons of education as applied aspects of the subjects will get more recognition in future teaching learning process.

In the first session, In his dynamic and informative lecture, main speaker of the workshop, Prof Chetan Dadheech, Head, Department of Chemistry, explained various dimensions of food adulteration. He described adulterated components of Milk, Kesar, Ghee, Spices, Sugar, Sweets, and Tea etc. He tactfully linked the topic with the Hindu mythology and emphasized that we have to root out our ignorance to overcome the problem of food adulteration entirely.

In the second session, Prof Chetan Dadheech along with other faculty members Dr R K Sharma, Prof Ambesh Kumar and Prof Sudarshan Sharma demonstrated lab testing of adulterated compounds of various foods as Milk, Tea Honey, Spices etc, before the participants in the laboratory.

In the concluding session, NSS Program Officer, Prof Shanilal Joshi extended thanks to the Management and Principal for providing the permission and facilities to conduct the program, and Colleague, Technical Team members and participants for making the program successful.

Principal

Seth G.B. Podar College
Nawalgarh - 333042

EVALUATION

All the participants of the workshop were requested to submit their views on the workshop on prescribed feedback form. Majority of the participants marked workshop as "excellent" on feedback format.

FUTURE PROSPECTS AND OUTCOME OF THE WORKSHOP

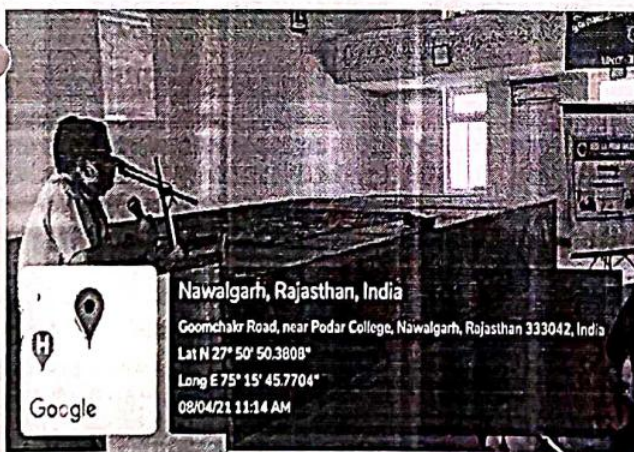

1. After analysis of feedback forms, as per the concept of service to the mankind it has been planned to organize the workshop again in the next session at regional level (Sikar, Churu and Jhunjhunu) to make more and more people aware about the issue as it is directly associated with the health issue of the public at large. Taking such initiative, will also add glory to the College.
2. Efforts may also be developed to establish a food adulteration testing centre with collaboration with the State agency.

Conservation and Tree Plantation" is necessary for the society and the country and for the future. Told a counter-revolutionary step.

In the workshop Seth Gyaniram Bansidhar Podar College, Podar B.Ed. College, Podar G.P.S, Podar S.K.P. Tiny Toddler, Podar Hindi Medium, Podar Primary School, Podar ITI. Principal and students participated and inspired the students and present people towards water conservation and tree plantation. Addressing the workshop, College Principal Dr. Satyendra Singh said that water conservation and plantation are complementary to each other. Plantation prevents soil erosion and trees are an essential factor for more rainfall. Speaking in the workshop, Principal of Podar Primary School, Ranjit Singh Shekhawat said that water can be conserved by stopping the misuse of water, by renovating wells, stepwells, ponds, by limiting excessive exploitation of underground water and by making wells that absorb water from the roofs. In the workshop, Podar Tiny Toddler School Principal Premlata and Podar B.Ed College Principal Dr. Durga Bhojak said that water conservation and tree plantation are very useful for our future and we should contribute in this by adopting methods of water conservation. The students of the institutions also apprised the school students and the people present about the methods related to water conservation. All the students and staff members gave the message of environmental protection by planting trees in the school premises.

Podar Trust chairman Kantikumar R. Podar and Trustee Ms. Vedika Podar believe that there is relatively less rainfall and less forest in Rajasthan. Therefore, water conservation and tree plantation are more important here. Water and trees are priceless gifts given by nature. Therefore, by protecting them properly, we should continue to discharge our responsibility for the future generations.

Club, on World International Environment Day. A seminar was organized under the chairmanship of Dr. Dayashankar Jangid, International Chairman of Alliance Club. On this occasion, Director of Podar Trust, Dr. VS Shukla gave detailed views on World Environment Day and appealed to the present members to plant more and more trees to keep the earth green. Secretary of Podar Trust Prof. M.C. Malu said in his address that the cutting of trees is happening indiscriminately, due to which the temperature of the earth has started increasing, so to save life, everyone should plant at least one tree and take care of it properly, only then we can keep the environment safe.

International Chairman of Alliance Club Dr. Dayashankar Jangid said in his address that the temperature of the earth is continuously increasing, due to which the environmental balance is deteriorating, so we all should forward the campaign "Plant trees - save future" being run by Ms. Vedika Podar, Trustee of Podar Trust. In order to keep the earth green, work should be done to motivate people to plant more and more trees. In the end everyone was administered an oath to save the environment from getting polluted. On this occasion, Podar College staff, Mohan Lal Chudiwal, Omprakash Chobdar, Murli Chobdar, Phoolchand Saini and Dr. Anil Sharma were present. All the present members planted trees in the Podar College campus and around the college. Podar College Principal Dr. Satyendra Singh expressed gratitude to all the present members. World Earth Day was celebrated in Different types of competitions were conducted in schools to save the earth on World Earth Day. After this, an awareness seminar on World Earth Day was organized in the seminar hall of Podar Trust. Students and staff of Podar institutions participated in this seminar. Various faculty members delivered lectures on World Earth Day on the occasion. In this sequence, Botany Department Head Komal Lata Nagpal explained the origin of the earth, the reason for organizing World Earth Day and its father Dr. John McConnell and Golord Nelson told that the first World Earth Day was celebrated on 22 April 1970. Since then, it is to be celebrated every year on 22 April. Today 141 countries of the world have joined it. The organization of World Earth Day is related to issues like environment, environment, pollution, global warming. Under this, the lecturers threw light on the measures and efforts for its conservation through the film.

Head of the Department of Zoology, Prof. Daulal Bohra said in his address that the use of polythene is the biggest problem due to which it is destroying the fertility of the land and also contaminating the underground water. Which is the main reason for global warming. All of us were advised to minimize the use of polythene and asked the students to try their level best. Podar College Dr. In his address, Satyendra Singh expressed concern over the damage caused by the threat of global warming, to increase the number of trees on the earth, to make it greener, to prevent unnecessary use of vehicles and to keep one day a week pollution free. Told to use more and more so that global warming can be stopped.

At the end of the program, Podar T.T. College Principal Smt. Durga Bhojak administered oath to the children and visitors to plant trees on their birthday and take care of them and keep the earth green.

Podar Trust's Chairman Kantikumar R. Podar and Trustee Ms. Vedika Podar have always been thinking that we all can save our future by making the earth pollution free by making students and society aware of such activities.
