## RATIONALE:

Language is a complex system of communication and every language has its unique way of constructing words, phrases and sentences to communicate ideas. Linguistics is the study of the different aspects that make up languages, how they combine, how humans acquire knowledge about languages and how languages express who we are socially and culturally.

This field of study examines the general and specific structures of languages, how languages vary between geographic regions and how different languages form sounds, words and sentences.

Although linguists can speak a variety of languages, they are primarily concerned with exploring how languages work, develop and how people process languages. A person who speaks and understands multiple languages is called a polyglot. While many linguists are polyglots, the science of linguistics is focused on how we communicate rather than on what languages we communicate.

Language science can solve doubts by clarifying the reasons for change or change of meaning. Not only this, for the analysis of literature on linguistic basis, the development of an independent science, called 'Stylistics', has evolved, which indisputably proves the virtues of literature and linguistics, and the compulsive expression of the other.

## RATIONALE:

Faculty development programs (FDPs) have proven to be successful for improving teaching skills in higher education.

Professional FDPs produce promising outcomes in the learning and teaching practices and recommended that teachers in higher education should attend FDP training activities on regular basis.

Planned FDPs should extend beyond the health professions discipline, to include social skills necessary for collaboration, professional growth as well as management, and leadership abilities.

To instructional development which emphasized the development of faculty skills involving instructional technology, small group teaching, media, courses, and curriculum design

Help in professional development which emphasized the development of individual faculty members in their professional responsibilities as educators, researchers, and administrators

It also help Organizational development which emphasized the requirements, and main concerns of the institution

FDP also help in Career development which emphasized faculty preparation for career advancement

FDP also enhanced the Personal development which stressed on life planning, interpersonal and communication skills of faculty members.

## RATIONALE:

Faculty development programs (FDPs) have proven to be successful for improving teaching skills in higher education.

Professional FDPs produce promising outcomes in the learning and teaching practices and recommended that teachers in higher education should attend FDP training activities on regular basis.

Planned FDPs should extend beyond the health professions discipline, to include social skills necessary for collaboration, professional growth as well as management, and leadership abilities.

To instructional development which emphasized the development of faculty skills involving instructional technology, small group teaching, media, courses, and curriculum design

Help in professional development which emphasized the development of individual faculty members in their professional responsibilities as educators, researchers, and administrators

It also help Organizational development which emphasized the requirements, and main concerns of the institution

FDP also help in Career development which emphasized faculty preparation for career advancement

FDP also enhanced the Personal development which stressed on life planning, interpersonal and communication skills of faculty members.
