1	A special class should be organised during the summer vacations also.
2	Until the regular classes are not started, special computer classes should be arranged for the children.
3	English speaking classes should be organised in summer vacation
4	Some positive work should also be considered for students in summer vacation.
5	The college should brainstorm on the efforts it can make at its level to increase the ground water level.
6	The continuous fall of water level is a serious problem of this area, the college should think about its role in its solution.

Date: 2022.11.12 15:11:55 +05'30'

Suggestions From Faculties

1	Teaching methods should be changed from time to time such as effective technical methods should be used to increase student's involvement in study.
2	Some have suggested that one subject in UG Social Science should be practical like dissertation; it enhances students' thinking and analysing ability.
3	For PG students, the study pattern as well as course syllabus must be updated according to UGC NET exam
4	Some modifications are requested in course curriculum as from many years it is the same for all UG and PG courses.
5	New topics should be added in the post-graduation course curriculum as it has been already taught and studied in graduation.
6	Job oriented skills should be provided so that the chances of student's employability could be increased.
7	Syllabus must contain objective questions
8	The most significant thing is that the curriculum does not have much content focusing on gender sensitization or affection for nature which are important points of everybody's concern these days.
9	More Reference books should be provided to the students
10	Experimental education should be started, research should be promoted.

Feedback Process:

Obtaining the feedback from stakeholders, is a continuous process which involves the following phases

6. **Design Forms**: Designing the forms in a manner to capture the data relevant to Feedback Analysis, is one of the first and most important steps in the process. And in the years to come the design of form will undergo further changes.
7. **Distribute/Collect**: the form (Google Link) is distributed to different stakeholders. The data thus collected is analysed and important suggestions are noted.
8. **Action Initiated**: The Analysis report and the suggestions are discussed with the respective departments and faculty members are instructed to take appropriate Action.
