Introduction:

In Present Scenario, every aspect of our life is connected to IT. In every field of human life, information and technology is spreading its impact. IT plays an important role in the field of education to make the learning process effective. Students can raise their doubts and teachers can provide the solutions without going to one's place. Traditional methods of teaching can be, boring and students start getting frustrated. But information technology make learning process more interested through games, animated graphics etc. It works as a motivator for learners to improve their skill and self assessment. According to researchers, our concentration levels are decreasing with the overwhelming usage of the internet as we are concentrating on a lot of things at the same time. Our memory power is reducing with the growing usage of the internet.

Objectives:

1. Used to provide real- world environment to improve learning methods.

2. Used to enhance the communication through Internet and communication media.

3. Used as productivity tool to make easier such as spreadsheet, databases, word processor etc.

4. To improve the student learning and basic skill area.

5. To make Effective and interesting teaching program.

6. To achieve quality education in institution.

7. Online examination & monitoring.

8. To Provide Security of confidential data and documents.

9. To save time & Cost of Institution.

10. To understand the bane of growing usage of the internet.

About Expert:

Mr. Kirti Kumar Soni, Chief Electrical Engineer in FLSmidth Pvt. Limited (Denmark). Presently This Company is working on a project in Udaipur, whose name is Hindustan zinc Limited. At present Mr. Kirti Kumar Soni working at the post of chief electrical engineer in this company since 1 year.

About Event:

Introductory presentations:

A Webinar was held under the aegis of Technical Session of PIMS Department at Seth G.B .Podar College, run by The Anandilal Podar Trust. The Webinar was officially started by Mr. Rajesh Verma who welcomed honorable principal, vice principle and faculty members followed by a short speech by the principal. The webinar was very interactive and innovative. The main focus was to make everyone to know that IT Boon or Bane for a human life.

About Presentation:

Speaker presented their presentation on latest topics of Technical area, IT Boon or Bane. In this session Students attended presentation to attain knowledge about this trendy topics as well as faculty members measured their skill and Experience level of their knowledge. The presenter shared vital information & current trends in IT and told that IT has broad out on how work is done and how important info & data are analyzed. However as a norm any good things bring disadvantages on the table so should be handling carefully and to the positive approach to iron

out the disadvantages. Through Internet, viruses and malware spread easily and total data on the device can get corrupted. Many people waste their precious time on the internet. Internet

addiction is now one of the modern world's problems. Virtual communications have replaced the face to face communication. Many people, especially youngsters are giving importance to the virtual world more than real life. So IT is Boon and also Bane for human life.

Conclusion:

When we say technology is dominating our life, but as a human being we have a brain, to decide what's wrong, what's not, when to stop, and when to get off. Technology just a facility how a person use in right way, at right place and at right time.

Participants' queries:-

1. How can we overcome and minimize the bane of IT?
2. Will IT continue to grow in coming years?

The session was ended by a thanks giving speech by Mr. Mukesh Saini, Department of BCA. He thanked the speaker and offered his gratitude for sparing his valuable time and sharing knowledge to the students.
