**Event Description:**

This workshop how to manage and IPR portfolio aimed to managing a business knows the importance of maximizing the return on investments in employees, products, and equipment. But it's easy to overlook an important asset: a company's intellectual property (IP), or all the intangible knowledge that makes your company tick. We're not just talking patents and copyrights here; intellectual assets go well beyond the technology that gets baked into products to include branding, know-how, trade secrets, and more.
