Remedial (extra) classes

The PIMS (BBA & BCA) department follows a well planned and documented process to ensure effective delivery of curriculum. The department pays special emphasis on this as the mission of the college is also to impart quality education.

Although the department takes all steps possible to deliver the curriculum in time, there are some students who have low grasping power (for whatever reason) and they are unable to comprehend the teachings. Such students are classified under slow learners. They are provided with remedial classes as per the needs, faculties of BBA and BCA are committed to ensure that such students are provided with a method which will help their cause and benefit them in the best possible way. While devising a method students are also involved In the process and their valuable input are given due importance, they are involved in every step as this program is ultimately for their benefit.

The department makes arrangement for remedial classes for slow learners. The topics of such sessions are meticulous planned with focus on important topics. Only important topics are chosen due to the time constraints and other constraints. Along with the classes study notes are prepared and shared with the students. Notes are made keeping in mind the level of students and their grasping power. Remedial sessions are just one part of the program.

The other important part is monitoring and evaluations of the results gained by students after these sessions. Regular assignments are given to students and are analyzed to gauge the improvement. Special test series are organized to further assess the progress of individual students.

Remedial classes are a flagship program of PIMS and will continue in the future with improvements and changing methodologies as per the needs.
