**Resolution 11:** The details of the Add-on-Programmes/Certificate Courses in department of Computer Science were submitted by Prof. Rakesh Kumar Mahala, Head, Department of Computer Science With the following details:

S. No.	Particulars	Details of the course
1.	<b>Nomenclature of the Add-on-Programmes/Certificate Courses</b>	Introduction to Programming with Python
2.	<b>Duration of course</b>	30 Hours
3.	<b>Name of Coordinator</b>	Prof. Rakesh Kumar Mahala
4.	<b>Name of Co-coordinator</b>	Prof. Mukesh Kumar Saini
5.	<b>Name of Members</b>	1. Prof. Ashish Kumar Mathur
6.	<b>Proposed Syllabus of the course</b>	Prof. Rakesh Kumar Mahala placed the copy of syllabus for the proposed course for the consideration, approval with or without modification. The final draft of the course will be forwarded to the managing committee of the college and the governing board of the Anandilal Podar Trust, Nawalgarh.
7.	<b>Reference Books for the course</b>	List of reference books were placed along with the syllabus of the course.
8.	<b>Examination system</b>	The students will be assessed on the basis of personal interview method and viva voice at the end of the completion of the course.
9.	<b>Fee of the course</b>	No extra fee will be charged for the Add-on-Programmes/Certificate Courses.
10.	<b>Award of certificate</b>	The successful students will be awarded with the Certificate of Merit by the college.

**Detailed proposed syllabus and reference books:**

## Syllabus:

### **Unit-I**

Introduction [5%] Basic elements of python, branching process, Control Structures, String and Inputs, Iterations

### **Unit-II**

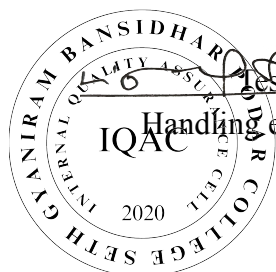

Functions and Abstractions [5%] Functions and scoping, recursions, global variables, modules, files, System functions and parameters

### **Unit-III**

Structured Types, Mutability, Higher order functions [10%] Strings, tuples, lists, dictionaries, mutability, Functions as Objects

### **Unit-IV**

Testing, Debugging, Exceptions and Assertions [10%] Types of testing, Debugging, Handling exceptions, Assertions

## SETH GYANIRAM BANSIDHAR PODAR COLLEGE

Podar Educational Campus, Nawalgarh - 333042 (Raj.)

Date: August 23, 2022

### Notice

**To:** Students of U.G & P.G  
**From:** Department of Chemistry, Seth Gyaniram Bansidhar Podar college, Nawalgarh  
**Subject:** Important Notice Regarding Enrolment for Instrumental Operating Techniques Certificate Program Session 2022-23

Dear Students,

This is to inform you that the enrolment process for the "Instrumental Operating Techniques Certificate Program", offered by the Department of Chemistry, is now open. The program is scheduled to commence in **October 2022**.

The program is designed to provide students with a comprehensive understanding of various instrumental techniques used in chemical analysis and research. Through theoretical and practical sessions, students will gain hands-on experience in operating instruments such as UV-Vis spectrophotometers, Conductivity Meter, P<sup>H</sup> Meter, Colourimeter, Polarimeter and more.

**Eligibility:**

- Students who have completed 12th. (Science) or an equivalent degree from a recognized Board are eligible to apply.

**Enrolment Process:**

1. **Fill the application form:** Please fill in the form carefully and legibly, ensuring all required information is provided. (Form Available in Department)
2. **Attach required documents:** Attach copies of your academic certificates, mark sheets, and any other relevant documents as mentioned in the application form.
3. **Submit the application form:** Submit the completed application form along with the required documents to the Department of Chemistry office by **30/09/2023**.

**Important Dates:**

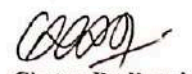

- Application deadline: 30/09/2023
- Start of program: Every Friday & Saturday (14:00 to 17:00) From October 2022

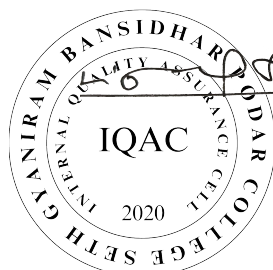

**For any queries, please contact:**

- Department of Chemistry office: 9024491001; 8005506900
- chemistry.podarcollege@gmail.com

We encourage all interested students to apply for this valuable program. We look forward to welcoming you to the Department of Chemistry and providing you with the knowledge and skills you need to excel in your chosen field.

### Report

#### "Instrumental Operating Techniques" Certificate Program

##### Executive Summary:

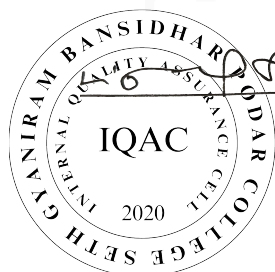

The "Instrumental Operating Techniques" certificate program, offered by the Department of Chemistry, was a resounding success. The program, designed to equip participants with the theoretical and practical knowledge of operating various analytical instruments, saw a diverse group of participants from various backgrounds and academic levels. This report summarizes the program's key outcomes, highlighting the participants' achievements, the program's strengths, and areas for potential improvement.

##### Program Outcomes:

- **Enhanced Skills:** Participants demonstrated significant improvement in their ability to operate instruments such as UV-Vis spectrophotometers, HPLC, GC-MS, and IR spectrometers. They gained hands-on experience in sample preparation, data acquisition, and interpretation, leading to a deeper understanding of instrumental techniques.
- **Knowledge Acquisition:** The program provided a comprehensive theoretical foundation in instrumental analysis, covering topics such as spectroscopy, chromatography, and mass spectrometry. Participants actively engaged in classroom discussions and successfully completed assignments, showcasing their grasp of key concepts.
- **Confidence Building:** Through practical sessions and individual projects, participants gained confidence in their ability to troubleshoot problems and independently operate instruments. This newfound confidence will be invaluable in their future academic or professional endeavors.
- **Networking Opportunities:** The program fostered a sense of community among participants from diverse backgrounds. They actively collaborated during group projects and shared their knowledge and experiences, building valuable professional networks.

##### Program Strengths:

- **Experienced Faculty:** The program was led by experienced and passionate faculty members from the Department of Chemistry. Their expertise and dedication ensured the delivery of high-quality instruction and personalized guidance to participants.
- **Well-equipped Laboratory:** The program benefited from access to a modern and well-equipped laboratory facility. This allowed participants to gain practical experience with a variety of instruments in a safe and controlled environment.
- **Interactive Learning:** The program adopted an interactive learning approach, incorporating lectures, hands-on sessions, group projects, and individual assignments. This kept participants engaged and facilitated effective knowledge retention.
- **Flexible Schedule:** The program was offered with a flexible schedule to accommodate the needs of working professionals and students. This ensured wider accessibility and participation.

## Areas for Improvement:

- **Advanced Techniques:** While the program covered a wide range of basic and intermediate techniques, some participants expressed interest in learning about more advanced instrumental methods. This could be addressed by offering specialized modules or workshops in the future.
- **Software Training:** Some participants requested additional training on data analysis software specific to different instruments. Incorporating software tutorials or workshops could enhance the program's value for participants.
- **Industry Exposure:** Including guest lectures or field trips to relevant industries could provide participants with valuable insights into the practical applications of instrumental techniques in real-world settings.

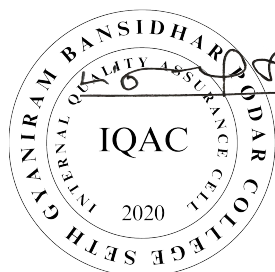

## Conclusion:

The "Instrumental Operating Techniques" certificate program successfully achieved its objectives, equipping participants with the necessary skills and knowledge to operate analytical instruments effectively. The program's strengths, including its experienced faculty, well-equipped laboratory, and interactive learning approach, contributed significantly to its success. By addressing the identified areas for improvement, the program can be further enhanced in future iterations to cater to the evolving needs of participants and the field of analytical chemistry.

We would like to thank all participants for their active participation and commitment to the program. We are confident that the skills and knowledge gained will be instrumental in their future success.

## **DEPARTMENT OF ENGLISH**

### **Report on Certificate Course in Business Communication (2022-23)**

The college offers a certification course on Business Communication for the students of U.G & P.G. to improve the business communication skills of students.

The course helps the students to boost their confidence level and equips them to face the challenging world outside in an optimistic manner. The activity oriented sessions in the syllabus aim to enhance the employability skills and make them competent to survive in a corporate world.

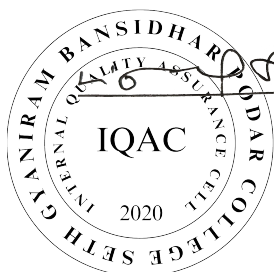

Written and oral examination is conducted after the completion of the syllabus to evaluate the understanding and the knowledge of the students. Certificates are also issued to the students on the basis of the grade scored by them.

The teachers have successfully handled all the activity sessions in a unique style of their own. They have also added some innovative strategies to make the activities more interactive and lively.

The syllabus for Business Communication comprises 30 hours. The syllabus focuses mainly on activities which help in the overall development of the students. The activities compiled by Mr. Sudhir Jangir (Department of English).

The main motive of the course curriculum is to help students gain confidence, investment policy, loss & profit conditions etc. The syllabus deals with activities based on speaking skills which helps the students capable of speaking on a public platform which enables the students to present content with confidence and clarity. It deals with interpersonal skills which help the students to interact well with each other and produce creative ideas. In total, the business communication course curriculum helps in broadening the intellectual horizons of the students.

Written and Oral examinations were conducted (in November 2022) after the completion of the course, for evaluating the speaking and writing skills of the students. Certificates were also issued to the students based on their performance in oral and written examinations. The key concepts of this course include self-control, positive self-concept, social skills, communication, and higher order thinking skills.
