Impressed by her approach and her communication skills, professionalism and the way she presented herself a few participants did put forth the queries and she patiently and whole heartedly answered all the queries resolving them to the satisfaction and the answer she provided for the first query itself set an example for the other participants to motivate and ask their queries whatever they had in their mind, this approach of Miss World was very very effective and soon other participants also came forward and ask that questions which again was satisfactory resolved by Miss World and she appreciated the people who put for the queries and set an example for other participants that it is all right to put forward that queries as it is very important for her to understand each and every participant so that they can benefit in the maximum way possible. Ms. Wolf giving assignments during Team Building Session

She explain the concept of team building with various examples and situations where organisations have benefited with good and effective team building attitude and also about organisations which has gone down due to the lack of team coordination and team building.

After this brief introduction on team building she provided and opportunity to all participants to express their views on what they perceive of team building and also how they can achieve good coordination among themselves and achieve the same.

Sessions of team building are often considered as normal sessions however if we dive deep into the subject we can realise how important team building and team building exercises are for coordination between departments the lecturers students the stakeholders of the Institution and the society at large.

After taking the views miss wolf provided the materials and ask every participant to write other ideas on team building exercises how to achieve the greatest level of coordination which will enhance team building and also give examples on how it can boost their performance and the over all development of the Academics and the other aspects of the students with the help of team building.

Considerations on Teambuilding presented during the sessions:

- Team building is always building cognitive AND emotional trust! To think about: Which measures could be taken to increase team trust and confidence
- Define and communicate a clear goal, present it visually in suitable places
- There is always a goal behind the goal. Leaders who define the goals must decide if the goal behind the goal or even the SMART goal should be communicated to the teams or not.
- Goals communicated to the team (or teams) should always be smart specific, measurable, attractive and achievable, realistic and which can be completed with a date when it is supposed to be finished
- Being attractive might relate e.g. to enhancing reputation, being given a benefit or avoiding sanctions
- Better to only have one or two SMART goals and following them up intensely than to define many goals and not having the capacity to follow up

It must be decided in advance what is supposed to happen if realistic goals are not achieved (negative consequences) and what the benefits for the people involved will be for reaching the goal

- Defining goals must be carefully thought about and discussed and also involving lecturers wherever possible
- Making Podar College more attractive goal behind the goal, far reaching
And clearly explaining the benefits of achieving goals
- Having more research publications (general medium-range goal)
- At least one scientific research has been published by every faculty until a specified goal by a date fixed date (smart goal, if this is an attractive and achievable one for lecturers.
- Improving team spirit, (goal behind the goal, far-range-goal)
- Making people cooperate who find it difficult to cooperate and giving them an attractive task where they have to rely on each other if they want to be succesful (medium-range-goal)
- Define adequate sizes and compositions of subteams suitable for the goal or for the team-building process itself
- Size of team: A too large group is more difficult to lead. Division in Sub teams is needed. The larger the total group, the more delegation is necessary.
- Do not gather too many team members for team-building!
- If it is about team building process for a large team, leaders of sub teams must be identified and team-building process will be for the sub team leaders (considered as a leading team themselves) and/or one sub team.

3. Studies have shown that diverse teams tend to be more creative although sometimes they are more difficult to handle.

4. Diversity may mean: males and females, old and young, different educational backgrounds and different backgrounds in general

5. To make sure that there is not a vast majority of one age/one sex/one background and maybe just one person from another age/sex/background!

Example: A team with older, experienced, male science lecturers would not profit so much from just one younger unexpected women with a Humanities background.

Ms. Wolf providing a helping hand to teams on their assignments

6. Clear leadership role on team-building measures

7. It should be clear who is in charge to decide about and control on team building measures (just one person!). There can be delegation tasks

As per Ms. Wolf studies show that it is easier to memorize when learning is active and multisensory and that subjects are better memorized when more ways of proceeding information are used

- Giving students a more active role means they are given the chance to learn how to structure and comment on the subjects instead of only „inhaling“ it.
- Although for exam preparation it might be enough to reproduce what the lecturer has said, it does not trigger creativity, trying to solve problems and developmental spirit.
- Students should learn how to find and evaluate relevant information themselves very quickly as a preparation for their post-studying life.
- Students summarizing a topic in groups of two with bank neighbor.

Students retain information better when there is an element of finding out instead of being told.

3. Ask the question first to the whole group before addressing an individual student, and wait for some seconds before addressing an individual student. Reason: When right from the beginning an individual student is asked, the others might be leaning back not thinking so much about the answer.

4. Make sure a student's answer is understood by the whole group.

5. You may repeat the correct answer in a loud voice so that everybody understands.

6. Repeating the correct answer also ensures the other students what they are supposed to remember or know.

7. Don't make a student feel ashamed when he or she did not know or was wrong.

Questions can be used for a variety of purposes: to collect knowledge already available in class, to make students think about structure or relevance, for repetition, for opinion-building, to arouse students curiosity and interest, and other purposes. Generally questions starting with a verb or an auxiliary verb produce less interactivity than questions starting with how, why, what, in what respect etc.

8. When starting with a new subject you can ask questions like „What do you already know about this subject?“ or „What have you have already read or heard about that? You may also ask: „Is there anybody who already knows something about the subject, making it easier to answer.

Suggestion: Let students give only one aspect each in order to make as many students speak as possible.

9. Beyond questions on knowledge: „What do YOU think should we focus on about this subject? Or : What aspects do you think should we focus on about this subject?“

questions help students to learn how to analyze and structure knowledge and supports logical way of learning.

10. Make students see the relevance of the subject. Questions like „Why do you think you should know something about that? or What is it relevant for or how does this subject affect our lives?“ Might be useful, either before starting with a new topic or after having informed on it or while informing.

For repetition: What do you remember about xy? What was the most relevant point for you? What would you ask your students if you were the one to have our last session repeated?

General: Ask students to give examples on the topic you have been explaining, or give examples and ask them to fit them to the topic you had been presenting. Ask students about their opinions: Do you think that something related to your subject would be a good idea or not? Why? Or how would you solve the following problem?

Asking the whole group: A question to be answered by one word (like yes/no or right/wrong) very often can maintain students attention. Please pay attention if everybody is answering. Are there students who might not have understood what you explained before? Then maybe you should repeat it.

11. Making students ask questions

It is important to create an atmosphere where students dare to ask questions.

Encouraging students: Tell them there are no stupid questions. Tell them asking a question is a sign of showing interest and wanting to learn. Questions should be allowed at any time. If inappropriate in a given moment, you can tell them that you will answer later because it is not the right moment (Please don't forget to do so).
In case you don't know the answer: Admit it – Nobody is perfect. Promise to answer next time, and do so.

12. About promoting interactivity in between the students

demanding task for the strong ones. Make sure the weak ones can still learn something instead of always being with other weak students. Note: Strong students working with weak ones sometimes may profit as to their social skills like having patience, taking care etc.

There are numerous more ways to make students more active in class. Some examples:

- Role-playing
- Giving them a quiz to solve
- Let hem guess about facts: „How many per cent of the population do you think are...?”
- Having them find out information themselves with their mobiles
- Letting them write on the whiteboard
- Let them brainstorm on a subject in a group by telling them to only give one item/idea/sentence/aspect on a time by each student (focus on quickness rather than quality)
- Having them debating on a controversial issue
- Let them discuss on how to solve a problem, etc.

Let them prepare to give a lecture on a topic themselves and give them time of 15 minutes for presentation. After that you can do corrections or add information.

REPORT

As Student Awareness Program “Poster Making Competition” On World Ozone Day Organized by the Department of Chemistry.

Objectives:

- To encourage students to exhibit their knowledge, presentation skills and innovative ideas.
- To create social and environmental awareness among students.
- To understand the different processes that destroy ozone in the Earth's atmosphere.
- To develop an understanding of the global trend towards ozone depletion, recovery and enlighten how citizens can help to reduce ozone depletion.

Preface of the Event -

16th September is celebrated as World Ozone Day to create awareness among people regarding the importance of the ozone layer in the atmosphere. With this idea in mind, the Department of Chemistry of Seth Gyaniram Bansidhar Podar College, Nawalgarh has organized a Social Awareness Program: Poster Making Competition on World Ozone Day on 16th September 2022. This competition was organized for PG and UG students. Total 15 posters have been displayed by participants. The event started with an address by Prof. Vishakha Punkhia. She stressed on the importance of the ozone layer in the stratosphere where it forms a protective layer that shields us from harmful ultraviolet rays. Human activity has depleted this ozone layer and caused "holes" in the ozone layer. She stressed on saving the ozone layer and said one should take preventive measures for saving the environment, stop using the products which are harmful for the environment, if our environment is safe, only then we are safe. Safe environment will lead to safer lives. After Prof. Vishakha Punkhia speech, felicitation of judge Prof. Sudarshan Sharma was performed. A video clip showing “Ozone Awareness” is played. Prof. Bhanu Dabala has delivered a speech on the importance of Ozone in the environment. He explained how Ozone gas protects everything living on the Earth from harmful ultraviolet (UV) rays from the Sun. Further he extended without the layer of ozone in the atmosphere, it would be very difficult for anything to survive on the surface and plants cannot live and grow in heavy ultraviolet radiation, nor can the plankton that serve as food for most of the ocean life. The ozone layer acts as a shield to absorb the UV rays, and keep them from doing damage at the Earth's surface.

At the end the judge inaugurated the poster competition.

Students have made beautiful posters representing the importance of the ozone layer in the atmosphere and how it had been damaged over decades mainly due to human activities. They also elucidated the precautions that could be taken to protect the ozone layer by countries, organizations and individuals.

They emphasized the need to impart knowledge and spread awareness about the far reaching consequences of the depletion of ozone in the atmosphere and how, by being an ozone friendly consumer, every individual could contribute to the replenishment of ozone to protect planet earth from the ill-effects of global warming and related phenomena, caused mainly by the depletion of the thinning of the ozone layer over the poles. All the PG students with faculty members of the Chemistry Department have visited the poster and encouraged the first year students for their activity.

Final year students nicely explained the thought behind each poster and all the students and faculty members ensured to follow those thoughts for preventing the ozone layer. Finally Prof. Vishakha Punkhia declared the winners for the competition.

हिन्दी दिवस प्रत्येक वर्ष 14 सितम्बर को मनाया जाता है। 14 सितम्बर 1949 को संविधान सभा ने यह निर्णय लिया कि हिन्दी केन्द्र सरकार की आधिकारिक भाषा होगी। क्योंकि भारत में अधिकतर क्षेत्रों में ज्यादातर हिन्दी भाषा बोली जाती थी इसलिए हिन्दी को राजभाषा बनाने का निर्णय लिया और इसी निर्णय के महत्व को प्रतिपादित करने तथा हिन्दी को प्रत्येक क्षेत्र में प्रसारित करने के लिये वर्ष 1953 से पूरे भारत में 14 सितम्बर को प्रतिवर्ष हिन्दी-दिवस के रूप में मनाया जाता है। स्वतन्त्रता प्राप्ति के बाद हिन्दी को आधिकारिक भाषा के रूप में स्थापित करवाने के लिए काका कालेलकर, हजारीप्रसाद द्विवेदी, सेठ गोविन्ददास आदि साहित्यकारों को साथ लेकर व्यौहार राजेन्द्र सिंह ने अथक प्रयास किये।

हिन्दी दिवस का इतिहास

वर्ष 1918 में गांधी जी ने हिन्दी साहित्य सम्मेलन में हिन्दी भाषा को राजभाषा बनाने को कहा था। इसे गांधी जी ने जनमानस की भाषा भी कहा था। वर्ष 1949 में स्वतंत्र भारत की राजभाषा के प्रश्न पर 14 सितम्बर 1949 को काफी विचार-विमर्श के बाद यह निर्णय लिया गया जो भारतीय संविधान के भाग 17 के अध्याय की अनुच्छेद 343(1) में इस प्रकार वर्णित है. संघ की राजभाषा हिन्दी और लिपि देवनागरी होगी। संघ के राजकीय प्रयोजनों के लिए प्रयोग होने वाले अंकों का रूप अन्तरराष्ट्रीय रूप होगा।

यह निर्णय 14 सितम्बर को लिया गया, इसी दिन हिन्दी के मूर्धन्य साहित्यकार व्यौहार राजेन्द्र सिंह का 50वाँ जन्मदिन था, इस कारण हिन्दी दिवस के लिए इस दिन को श्रेष्ठ माना गया था। हालांकि जब राष्ट्रभाषा के रूप में इसे चुना गया और लागू किया गया तो अ-हिन्दी भाषी राज्य के लोग इसका विरोध करने लगे और अंग्रेजी को भी राजभाषा का दर्जा देना पड़ा। इस कारण हिन्दी में भी अंग्रेजी भाषा का प्रभाव पड़ने लगा।

‘National Constitution Day’ was celebrated by Department of Humanities on Saturday, 26th November 2022 at New Building, Room No.68. All the faculty members of Department of Humanities and students of UG & PG of all streams attended the programme.

Dr. Anil Sharma hosted the programme and told the students about the meaning of constitution and its importance. He further told the students that constitution of a country is written communication between government and the people.

The main speaker of this programme was Dr. Vinod Kumar Saini (Vice-Principal) told the students that A constitution is the supreme law of a nation. It defines the fundamental rights and duties of citizens. It describes the political principles and establishes the procedure of government institutions. The Constitution of India came into effect on January 26, 1950, and there were two hand-written copies, one in Hindi and the other in English. The Constitution of India is the longest written constitution, with 1,45,000 words in it. The original copy of the Indian Constitution contains 251 pages and is the most detailed one in the world. The completion of the Constitution of India was a lengthy procedure; it took nearly three years for its complete framing.

The members of the drafting committee of the Constitution conducted multiple debates and discussions to finalise each article. During the period of enactment, the Constitution of India contained 395 articles, 22 parts, and eight schedules. But today, after multiple alterations, it contains 470 articles, 25 parts, and 12 schedules.

Constitution Day is celebrated on November 26th in India. It is also known as ‘Samvidhan Divas’ and is celebrated every year to commemorate the adoption of the Constitution of India on the same date in 1949. November 26 is also considered ‘National Law Day’ by the citizens of India.

The students showed their great interest in this matter. They asked many questions related their problems.

REPORT

On 21 march 2023, Department of Zoology, Seth Gianiram Bansidhar Podar College, organized World Forest day in department of zoology for the students . Which was conducted by Mr. Rajkumar Saxena of Zoology Department, he told that plants are our life companions, life cannot be imagined without Forest .

Forests cover about 9.5% of the earth, which is about 30% of the total land area.

Around 1.6 billion people — including more than 2,000 indigenous cultures — depend on forests for their livelihood.

Forests are the mainstay of our life. Because 60% of our food is based on forests. Due to excessive cutting of forests, not only the creatures living inside the forest, but the humans living outside the forest are also affected. If forests do not remain, the future of humans will be in danger. Dr. Daulal Bohra, President of the Program Operations Department, he made each person take oath to plant a tree, Rajkumar Sharma was called as the chief guest in the program, Rakesh Kumar Jhangir encouraged the students in the program, and Rama Didwania, Mahima Soni be present.

Principal Dr. Satyendra Singh thanked the students, and

Dr. Vinod Kumar Saini, Deputy Principal, Seth G B Podar College wished the students a bright future.

State Level Workshop On World Cancer Day: A Leading

International Awareness Day

World Cancer Day every 4 February is the global uniting initiative led by the Union for International Cancer Control (UICC). By raising worldwide awareness, improving education and catalysing personal, collective and government action, we're working together to reimagine a world where millions of preventable cancer deaths are saved and access to life-saving cancer treatment and care is equal for all - no matter who you are or where you live. Created in 2000, World Cancer Day has grown into a positive movement for everyone, everywhere to unite under one voice to face one of our greatest challenges in history.

This year's World Cancer Day's theme, 'I Am and I Will', is all about you and your commitment to act. We believe that through our positive actions, together we can reach the target of reducing the number of premature deaths from cancer and non-communicable diseases by one third by 2030. In this event Zoology Department of Podar College, Nawalgarh have organized workshop for awareness and educated 35 PG students. Main aims of this event to makes aware and prevents cancer cause in student's life and protects our self.

country we live in. It is important to cast a ballot because our voice can help bring changes.

Apart from the staff members of the Department of Humanities, many students participated in this programme.

The students showed their great interest in this matter. They asked many questions related this day.

All the questions were answered by the expert speaker in explained manner. The students showed their full satisfaction in it.

After it, the principal, Dr. Satyendra Singh expressed his gratitude towards the expert speaker, Dr. Vinod Kumar Saini (Vice-Principal). He further said that every vote is crucial during the election, and citizens can make a difference in the country by voting. It is one of the only ways we, the people, can have power over what happens next. Many Indians are unaware of the importance of voting. The only way to influence laws and policies is through the poll, which positively impacts the lives of the people.

At the end, Prof. Sunil Kumar Saini concluded the session and thanked all the attendants of this event.
