REPORT

A ppt. presentation by Mr. Ankit Kumar Jangid, Assistant Professor, (Botany) on World Soil Day

"Now is the time to protect soil, its biodiversity and water to ensure a sustainable future"

World Soil Day is held annually on 5 December as a means to focus attention on the importance of healthy soil and to advocate for the sustainable management of soil resources. This year's theme is "Soil and Water: A Source of Life".

Department of Botany, Seth Gyaniram Bansidhar College, Nawalgarh observed the World Soil Day with the primary aim of sensitizing the students about the pollution and students were motivated for control our environmental pollution.

A key lecture was given by Ms. Suman Saini, Head of Department (Botany), Seth Gyaniram Bansidhar College, Nawalgarh as Soil and Water is our survival factor and we depends on the precious link between soil and water. Soil and water are fundamental for the functioning of all terrestrial ecosystems and over 95 percent of our food originates from these two resources.

Ms. Suman Saini, Head of Department (Botany)

Brief introduction on World soil Day is given by Mr. Ankit Kumar Jangid to all these functions, on which we and all terrestrial life depend, is soil biodiversity. From earthworms and termites, springtails and nematodes, to the vast range of fungi, protozoa and bacteria, as well as the roots of plants and their symbiotic partners, the hidden life of soils is critical to nutrient cycling, controlling pests and diseases and maintaining good soil structure.

But soils and soil biodiversity are under threat. Soils are being compacted, eroded, polluted, and sealed. The causes are many including deforestation, agricultural intensification, overgrazing, and urbanization, among others. These threats must be addressed.

Report for World Sparrow Day

On World Sparrow Day, the Zoology Department of Podar College organized a seminar talk to raise awareness about the declining sparrow population. The event was attended by esteemed guests including Principal Dr. Satyendra Singh and Vice-Principal Dr. Vinod Kumar Saini.

Dr. Daulal Bohra, a renowned expert, emphasized the critical role of sparrows in maintaining biodiversity. He highlighted the alarming decline in sparrow populations, primarily attributed to the impacts of modern lifestyles. Dr. Bohra underscored the importance of conservation efforts to protect biodiversity and prevent further species loss.

The Daulal Bohra sparrow, a unique species, is currently listed as endangered by the IUCN. A 2020 study by the Indian Council of Agricultural Research revealed a staggering 88% decline in house sparrow populations in Andhra Pradesh. Similar declines, albeit at a slightly lower rate (around 20%), have been observed in other states such as Kerala, Gujarat, and Rajasthan.

Principal Dr. Satyendra Singh shared his insights on the pressing issues of biodiversity loss, climate change, ecological crises, and environmental degradation.

The event concluded with words of appreciation from Prof. Neha Choudhary and Prof. Mahima Soni.

This event served as a valuable platform to raise awareness about the plight of sparrows and the importance of conservation efforts.

सेमीनार आयोजित**

न्यूज सर्किस/नवज्योति, नवलगढ़। कस्बे के टी आनन्दीलाल पोदार ट्रस्ट, नवलगढ़ द्वारा संचालित सेठ जी. बी. पोदार कॉलेज के जन्तु विज्ञान विभाग में विश्व गौरैया दिवस के अवसर पर सेमीनार का आयोजन हुआ। सेमीनार में प्राचार्य डॉ. सत्येन्द्र सिंह एवं उप-प्राचार्य डॉ. विनोद कुमार सेनी का आतिथ्य रहा। जन्तु विज्ञान विभागाध्यक्ष डॉ. दाऊलाल बोहरा ने अतिथियों का स्वागत किया। डॉ. दाऊलाल बोहरा ने विश्व गौरैया दिवस की प्रासंगिकता पर अपने विचार रखे। उन्होंने कहा कि जीव-विविधता को सुरक्षित रखने के लिए गौरैया नामक चिड़िया की महत्वपूर्ण भूमिका है। यह दिवस फ्रांस एवं भारत के संयुक्त प्रयासों से गौरैया के प्रति जागरूकता फैलाने हेतु मनाया जाता है। डॉ. दाऊलाल बोहरा ने गौरैया की लगातार कम होती संख्या के कारण बताए। उन्होंने कहा कि आधुनिक जीवन शैली गौरैया के लिए सबसे बड़ा खतरा है। अतः हमें भौतिकवादी जीवन के साथ जीव संरक्षण की दिशा में कार्य करना चाहिए। एक समय पर सहज ही घरों के आस-पास देखी जा सकने वाली पक्षियों की प्रजाति, गौरैया पर अब संकट है। भारत में घरेलू गौरैया प्रजाति मुख्य रूप से पायी जाती है, परन्तु कई दशकों से इनकी संख्या निरंतर कम होती जा रही है।

She said that with simulated experiments students get a real feel of practical problems through remote access. She also insisted the Faculty to go through the experiments of the V-labs before conducting the experiment in the physical lab. This will bring a better understanding and the deep learning among the concepts learnt. She also informed the faculty members to use the virtual labs not only for the lab component but also this can be used to substitute the theory concepts learnt in the few of the courses in the regular curriculum.

She demonstrated various experiments from Computer Sciences then provided a training starting from how to open the corresponding website to access a particular experiment, describing in detail each step. She illustrated in detail several experiments.
