REPORT

A lecture was delivered by Ms. Suman Saini, Head of Department (Botany) on National pollution Control Day

A lecture was delivered by Ms. Suman Saini, Head of Department (Botany), Seth Gyaniram Bansidhar College, Nawalgarh as National Pollution Control Day is observed in memory of those who lost their lives in the Bhopal Gas tragedy on 2nd December 1984. The day aims to bring awareness about the fatalities caused due to polluted water, land, and air. Also, to highlight how to avert industrial disasters like the Bhopal Gas Tragedy. Environmental pollution affects the quality of life and health.

Power point presentation by Mr. Ankit kumar Jangid

Pollution Control and good health of our environment is briefed to the students by Mr. Ankit kumar Jangid, Assistant Professor made the session for environment sustainable development. Pollution is a major problem faced by the world. As per the National Health Portal of India,

around 7 million people across the world die due to air pollution every year. It is also known as environmental pollution. We can define pollution as the addition of any substance, whether solid, liquid, gas, or any form of energy like heat, sound, etc. to the environment.

Various factors are responsible for causing pollution like the bursting of crackers, carbon emissions, bomb blasts, leakage of gases via industries, etc. Nowadays the problem of pollution is increasing day by day and it is the duty of the respective government and also the people to reduce the level of pollution. We should generate ideas and plans to control pollution.

Objective of "Plantation for Life" in Nawalgarh

The primary objective of the "Plantation for Life" initiative in Nawalgarh is to promote environmental sustainability through tree plantation, aiming to benefit both the ecosystem and the local community. The specific goals include:

1. **Environmental Restoration:** Replenishing green cover to combat desertification, reduce soil erosion, and restore the natural ecosystem, particularly in semi-arid regions like Nawalgarh.
2. **Climate Change Mitigation:** Increasing tree cover to absorb carbon dioxide, reduce greenhouse gases, and contribute to global efforts against climate change.
3. **Biodiversity Conservation:** Enhancing habitat for native flora and fauna by planting indigenous species, thus promoting biodiversity.
4. **Improving Agricultural Sustainability:** Encouraging farmers to adopt agroforestry practices, which can improve soil fertility, enhance crop yields, and provide additional income sources.
5. **Water Resource Management:** Promoting tree plantation to improve groundwater recharge, prevent water runoff, and maintain the hydrological balance.
6. **Community Awareness and Involvement:** Educating local residents, especially farmers, about the importance of trees and sustainable environmental practices. Engaging the community ensures long-term care and protection of the planted trees.
7. **Reducing Air Pollution:** Planting trees to filter pollutants from the air, improving air quality for better public health.
8. **Creating Green Spaces:** Developing green belts and forested areas to provide shade, reduce temperatures, and create healthier living environments for future generations.
9. **Socio-Economic Benefits:** Supporting local economies by promoting tree-based enterprises, such as fruit and timber production, and providing livelihood opportunities.

Report on the "Plantation for Life" Extension Activity

Organized by: Department of Botany

Location: Villages near Nawalgarh

Duration: 12th March 2024 – 13th March 2024

The main aim of extension activity to raise awareness among farmers and local people about the importance of tree plantation for environmental sustainability, soil conservation, and combating climate change. The activity aimed to promote a greener future and enhance the community's involvement in environmental conservation.

Participants:

- **Total Participants:** 40 students
- **Faculty Coordinators:**
 - Suman Saini
 - Shyama Didwania
 - Ankit Kumar Jangid
 - Vinod Kumawat
 - Anil Jangid

Activities Conducted:

Day 1 (12th March 2024):

- **Inaugural Session:**

Introduction to the significance of tree plantation for biodiversity conservation and combating desertification in Rajasthan.

A detailed lecture on the role of native trees in maintaining ecological balance.

- **Plantation Drive:**

Distribution and plantation of 200 saplings of native species such as Neem, Peepal, and Banyan.

Hands-on demonstration on proper planting techniques and maintenance.

Farmers were encouraged to adopt agroforestry practices.

Day 2 (13th March 2024):

- **Community Interaction:**

IQAC

Discussion on the long-term benefits of plantation for improving soil fertility, preventing erosion, and enhancing rainfall.

Success stories of reforestation projects shared by experts.

- **Workshop:**

Training session on nursery development and sustainable forestry.

Techniques for composting and organic soil management to support healthy plantations.

- **Pledge and Closing Ceremony:**

Participants and locals took a pledge to protect and nurture the saplings planted.

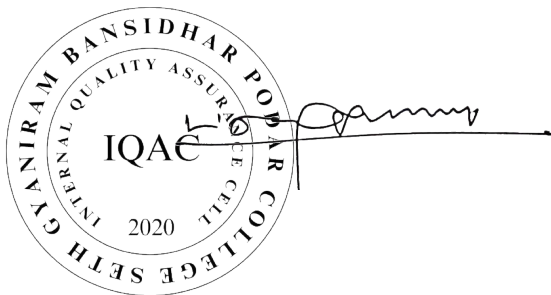

Certificates of appreciation were distributed to participants and farmers who committed to ongoing care of the trees.

Outcomes:

- **Environmental Awareness:** Increased understanding of the importance of plantation for life and sustainability.
- **Community Involvement:** Local farmers and residents actively participated and committed to maintaining the plantations.
- **Practical Knowledge:** Farmers gained valuable skills in agroforestry and sustainable land management.

Future Recommendations:

- **Follow-Up Visits:** Conduct periodic visits to monitor sapling growth and provide ongoing support.
- **Scaling Up:** Expand the initiative to include more villages and larger-scale plantation projects.
- **Educational Campaigns:** Integrate environmental education into local schools to promote a culture of sustainability

Objective of "Plantation for Life" in Nawalgarh

The primary objective of the "Plantation for Life" initiative in Nawalgarh is to promote environmental sustainability through tree plantation, aiming to benefit both the ecosystem and the local community. The specific goals include:

1. **Environmental Restoration:** Replenishing green cover to combat desertification, reduce soil erosion, and restore the natural ecosystem, particularly in semi-arid regions like Nawalgarh.
2. **Climate Change Mitigation:** Increasing tree cover to absorb carbon dioxide, reduce greenhouse gases, and contribute to global efforts against climate change.
3. **Biodiversity Conservation:** Enhancing habitat for native flora and fauna by planting indigenous species, thus promoting biodiversity.
4. **Improving Agricultural Sustainability:** Encouraging farmers to adopt agroforestry practices, which can improve soil fertility, enhance crop yields, and provide additional income sources.
5. **Water Resource Management:** Promoting tree plantation to improve groundwater recharge, prevent water runoff, and maintain the hydrological balance.
6. **Community Awareness and Involvement:** Educating local residents, especially farmers, about the importance of trees and sustainable environmental practices. Engaging the community ensures long-term care and protection of the planted trees.
7. **Reducing Air Pollution:** Planting trees to filter pollutants from the air, improving air quality for better public health.
8. **Creating Green Spaces:** Developing green belts and forested areas to provide shade, reduce temperatures, and create healthier living environments for future generations.
9. **Socio-Economic Benefits:** Supporting local economies by promoting tree-based enterprises, such as fruit and timber production, and providing livelihood opportunities.

Report on the "Plantation for Life" Extension Activity

Organized by: Department of Botany

Location: Villages near Nawalgarh

Duration: 12th March 2024 – 13th March 2024

The main aim of extension activity to raise awareness among farmers and local people about the importance of tree plantation for environmental sustainability, soil conservation, and combating climate change. The activity aimed to promote a greener future and enhance the community's involvement in environmental conservation.

Introduction to the significance of tree plantation for biodiversity conservation and combating desertification in Rajasthan.

A detailed lecture on the role of native trees in maintaining ecological balance.

- **Plantation Drive:**

Distribution and plantation of 200 saplings of native species such as Neem, Peepal, and Banyan.

Hands-on demonstration on proper planting techniques and maintenance.

Farmers were encouraged to adopt agroforestry practices.

Day 2 (13th March 2024):

- **Community Interaction:**

IQAC

Discussion on the long-term benefits of plantation for improving soil fertility, preventing erosion, and enhancing rainfall.

Success stories of reforestation projects shared by experts.

- **Workshop:**

Training session on nursery development and sustainable forestry.

Techniques for composting and organic soil management to support healthy plantations.

- **Pledge and Closing Ceremony:**

Participants and locals took a pledge to protect and nurture the saplings planted.

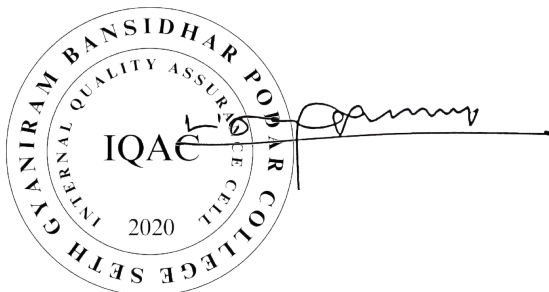

Certificates of appreciation were distributed to participants and farmers who committed to ongoing care of the trees.

Outcomes:

- **Environmental Awareness:** Increased understanding of the importance of plantation for life and sustainability.
- **Community Involvement:** Local farmers and residents actively participated and committed to maintaining the plantations.
- **Practical Knowledge:** Farmers gained valuable skills in agroforestry and sustainable land management.

Future Recommendations:

- **Follow-Up Visits:** Conduct periodic visits to monitor sapling growth and provide ongoing support.
- **Scaling Up:** Expand the initiative to include more villages and larger-scale plantation projects.
- **Educational Campaigns:** Integrate environmental education into local schools to promote a culture of sustainability
