- To awareness about the problem caused by increasing pollution

REPORT

A lecture was delivered by Ms. Suman Saini, Head of Department (Botany) on National pollution Control Day

It is observed on 2 December to spread awareness about the problem caused by increasing pollution. On the occasion of National Pollution Control Day, Students introduce to its history, significance, the purpose behind celebrating the day.

Department of Botany, Seth Gyaniram Bansidhar College, Nawalgarh observed the National Pollution Control Day with the primary aim of sensitizing the students about the pollution and students were motivated for control our environmental pollution as good citizens of India, thus contributing to the development of the country.

A lecture was delivered by Ms. Suman Saini, Head of Department (Botany), Seth Gyaniram Bansidhar College, Nawalgarh as National Pollution Control Day is observed in memory of those who lost their lives in the Bhopal Gas tragedy on 2nd December 1984. The day aims to bring awareness about the fatalities caused due to polluted water, land, and air. Also, to highlight how to avert industrial disasters like the Bhopal Gas Tragedy. Environmental pollution affects the quality of life and health.

Power point presentation by Mr. Ankit kumar Jangid

Pollution Control and good health of our environment is briefed to the students by Mr. Ankit kumar Jangid, Assistant Professor made the session for environment sustainable development. Pollution is a major problem faced by the world. As per the National Health Portal of India,

around 7 million people across the world die due to air pollution every year. It is also known as environmental pollution. We can define pollution as the addition of any substance, whether solid, liquid, gas, or any form of energy like heat, sound, etc. to the environment.

Various factors are responsible for causing pollution like the bursting of crackers, carbon emissions, bomb blasts, leakage of gases via industries, etc. Nowadays the problem of pollution is increasing day by day and it is the duty of the respective government and also the people to reduce the level of pollution. We should generate ideas and plans to control pollution.

Question-Answer session after organizing national Pollution Control Day
